Career Objective
Motivated software engineering with MERN stack experience and a solid foundation in web development. Eager to learn, collaborate with engineers, and contribute to real-world, user-focused projects while writing clean, efficient code.

Skills
Frontend Skills – HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS
Backend Skills – Node.js, Express.js, Firebase, MongoDB
Tools & Platforms – Git, GitHub, VS Code, Postman, Vercel, Netlify
Soft Skills – Fast learner, Teamwork, Collaboration

Projects

1. Book Haven Library – Online Bookstore
Overview: A web application to browse, search, and manage book listings in real-time.
Key Features:
- Built CRUD operations for book catalog using MERN stack
- Organized books by categories and genres for easy browsing.
- Delivered a fully responsive and modern UI with React.js and Tailwind CSS.

Tech Stack: React.js, Tailwind CSS, Firebase, MongoDB
